EDUCATIOIN

Web Development

2022

I delved into web development, mastering HTML, CSS, JavaScript, Bootstrap, and also explored Python and Django for creating dynamic and interactive websites.

Diploma - Information Technology

2023

From January to July, I attended a Diploma in Information Technology program, deepening my understanding of various aspects of the field. This experience allowed me to develop further my skills and knowledge in the dynamic world of technology.

Data Structure & Algorithm

2023 - 2024

I've been actively participating in a Data Structures and Algorithms class, where I'm honing my skills using the C programming language. This ongoing journey has been instrumental in enhancing my problem-solving abilities the core foundations of efficient programming.

Mastering JavaScript & React

2024

Currently, I am enrolled in a class to master JavaScript and React. This learning journey is aimed at gaining a deep understanding of these technologies, allowing me to build interactive and dynamic web applications with confidence.
